NATION NEEDS STEAGALL

Important bills are now before Congress and the only man who fully understands them is Representative Henry B. Steagall. As chairman of the House Banking and Currency Committee, he took the | the graduating exercises in the new to the banking bills, Mr. Steagall has sponsored and put through legislation of vital interest to farmers. While other Congressmen went home to campaign for another term, Mr. Steagall remained in Washington until two weeks before the primary to put through the farm marketing bill.

The unfinished legislation before the House cannot be completed at this term and Mr. Steagall's absence the next two years would mean that the South along with the entire nation would suffer. Bills designed to aid President Roosevelt in restoring normal conditions are on the House calendar and without a among his fellow-Congressmen, they will not be passed. Let's keep Mr. Steagall in Congress until the program has been completed.

In Sunday's issue of The Birmingham News, Ralph Hurst, political writer, discusses the importance of returning Mr. Steagall for another term. Says Mr. Hurst:

The only district in which the Congressional incumbent has not been renominated is the third, where the veteran Henry B. Steagall, of Ozark, is being opposed in a runoff by Hubert Farmer, young attorney and former state sena-

Steagall, among the Alabama Congressmen, is second in ability and importance only to Speaker Bankhead. Chairman of the powerful House Banking and Currency Committee, he is nationally known and respected and when Hugo Black's seat in the Senate was vacated, The New York Times editorially suggested Henry Steagall as the logical man for his toga.

In recent years opposition not understandable to the rest of the state has been showing up against Steagall, explained only by a suggestion from one of his constituents that he has become so absorbed in national problems he has lost his local touch. Which presents the question of whether a Cengressman best serves by shaping legislation or by getting postoffices and PWA

After some of the selections this State has made for Congress, it would be the height of irony not to reelect Steagall-which may be said without reflection upon his opponent.
